EXPERIENCE

Andela Technical Leadership Program - Kigali Rwanda — Fullstack software engineer

feb/2022 - present

I work as a full-stack developer trainee, learning new technologies in full stack web development.

I collaborated on the team project used to request and manage the company's employee travels. Got mentorship from experienced developers and got a chance to learn from them.

Skills gained from the program: version control with Git, designing user interfaces with Figma, Express.js · Node.js React.js, Communication skills · Team Collaboration · Sequelize · PostgreSQL ·

Klab (tech up skill), Kigali Rwanda — *Back-end developer*

June 2022 - Sepember 2022

I work as back end developer trainee, learning new technologies in back-end development.

Skills gained from the Tech up skill program: Soft skills, Larave, My SQL, CMS(wordpress).

EDUCATION

University of Rwanda - Bachelor's degree

April/2021 - present

Bachelor of Science in Business and Information Technology.

COLLEGE BAPTISTE GACUBA II, Kigali Rwanda — High school

01/ 2017 - 11/2019

National High school certificate in Software Development..
